

# Flat Panel TV Trolley 100"

**Product Code: FP10, FP1A, FP1H, FP15**

**FP10 Flat Panel 100"**

**FP1A Flat Panel 100" Accessories**

**FP1H Electric Height Adjustment**

**FP15 (Warranty Uplift to 5 Years total)**

The unique design of this kit will allow your new Flat Panel to be mounted with 500mm of fingertip height adjustment. Mount your DVD Player or Laptop front or rear on our large height adjustable shelf.

The flexibility this product provides will future proof your class room and allow for change in teaching techniques or classroom updates.

Perfect for rooms that may contain Asbestos!

This simple to construct frame comes with all hardware required to mount virtually all Flat Panels currently available on the market. The Universal Visa Mount will adjust from 200x 200mm centers to 1000x 600mm centers. Requiring only simple hand tools for construction, this system takes the engendering and complexity out of mounting Flat Panels to a portable trolley. The easy to follow guide will walk you through construction of the frame and direct you to how to mount the flat panels.

One of our user friendly design features is the **Accessory Pack (FP1A)** which includes a 400 x 300mm Height Adjustable Shelf. This shelf can be mounted on the rear of the frame allowing a Laptop or DVD player to be used where ever the frame is situated.

Another one of the features is the **FP1H Electric Height Adjustment**. Simply add this to the stand and from anywhere in the room, just press the up or down buttons to adjust the TV to your desired height.

For piece of mind add the **FP15 (Warranty Uplift to 5 Years total)** for a full replacement warranty for a total 5 years.
