

# Floor Mount Kit

**Product Codes: FM2 or FM6**

**FM2: LT12 Floor Mount**

**FM6: LT16 Floor Mount**

This product was designed out of necessity for the classrooms that do not have the structural ability to hold the weight of a Wall Cage. Since then it's been used for much more. Not only can it be used in the classroom as a convenient way of securing multiple devices but it can be used in the Library, Gymnasium or in a Hall-Way as a free-standing Locker. Outside the IT hub to secure class sets awaiting updates or maintenance.

As this product can be retrofitted at any time from Floor Mount to Wall Cage and back to a Trolley. This product range will future proof your classroom allowing for change in teaching techniques or classroom layout updates.

As this option transfers all the weight direct to the floor but still using the same amount of classroom real-estate as a Wall Cage it's perfect for rooms that may contain **Asbestos!**

Available in **Red, Green, Blue** or **Orange**.
