

Security Cage Installation

Only place light tension on the shear nuts at this stage

Using an 8x16mm bolt & 8mm shear nut screw 'L bracket to the security cage.

Using an 8x16mm bolt & 8mm shear nut screw the 'U bracket to the 'L bracket.

Using a 6x70mm bolt & a 6mm nylock nut screw the 'U bracket' to the Tube base.

Using a 6x70mm bolt' & 6mm shear nut place through the top 'angle adjustment hole'.

Shearing the security nuts

Once the data projector and security cage are installed & adjusted to suit. Tension the shear nuts until the Hexagonal portion of the nut brakes-away.

Caution:

Once this happens there is no none-destructive way of removing the shear nuts.
