

## Extension Pole

Product Code: EXP1, EXP2 & EXP3

### Extension Pole to Suit STDM, UNIM & DPCAGE 1, 2 & 3 meters in length

The Extension Pole is used when the length of the **STDM**, **UNIM** or **DPCAGE** is not long enough. This pole is sold in lengths of 1, 2 & 3 m. It has an internal diameter of 39mm allowing for all your cables to be run down the inside of the extension for a clean streamline appearance.

The pole is designed to be cut to length on site for fine tuning or have your installers buy 3m lengths to cover any situation that may arise.

**EXP1 1m Length**

**EXP2 2m Length**

**EXP3 3m Length**
