

## Standard Data Projector Mount

**Product Code: STDM**

### Standard Data Projector Mount

Proudly Australian built and designed around a solid steel construction. This streamline standard Projector *mount comes fully assembled out of the box* ready for mounting. The flat steel base has 6 pre-drilled holes ready for all fastening systems. The projector mounting head has been designed to fit virtually all brands and models of projectors. With a total of 20° lateral and 25° of tilt this mount has been designed for the straight forward room installation.

Complementing this is the advantage of up to 3m of drop available using our Extension pole part code **EXP** available in 1m, 2m & 3m lengths (**EXP1, EXP2 & EXP3**)
