UNIVERSAL WALL MOUNT

Product Code: UWM UWMA and UWM5

UWM   Universal Wall Mount
UWMA   Universal Wall Mount Accessorie
UWM5   5yr total UWM Warranty Uplift

This simple to construct frame comes with all hardware required to mount every short throw & ultra short throw data projector currently on the market. The universal board clamps will allow for virtually all Interactive White Boards or standard whiteboards to be mounted easily in minutes.

With only simple hand tools required for construction, this system takes the engineering & complexity out of mounting Data Projectors & Interactive White Boards. The easy to follow guide will walk you through construction of the frame. These Instructions guide the user on how to mount the data projector in relation to the board. For mounting to a surface (wall) refer to the relevant Australian Standards.

The cable kit contains. Cable Kit 5m VGA, 3m Power, 1.5m 3.5 ST RCA, 5m RCA leads and a four outlet power board. Connect all relevant leads, plug the power board into a GPO (240v socket) connect the data cable and you are ready to use your new electronic teaching aid.

One of our user friendly design features is the Accessory Pack (UWMA) which includes the Laptop Arm. This Arm sits out from the frame allowing a Laptop to be used where ever the frame is situated. Also the universal width adjustable speaker brackets allow the speakers to be mounted to the sides of the frame.
